## FULL STACK WEB DEVELOPER

---

### Front End Developer | Back End Developer

A skilled Full Stack Developer proficient in both front-end and back-end technologies, with experience working with JavaScript frameworks such as React for front-end development. Possesses expertise in server-side technologies such as Node.js and Express.js, along with database management systems like Mongo DB, MySQL and PostgreSQL.

## WORK EXPERIENCE

---

**Muer Technologies – Nairobi, Kenya**

02/2024 – PRESENT

### Front End Web Developer

- Translating UI/UX design wireframes/mockups into code, ensuring that the design is accurately implemented and visually appealing across different devices and browsers.
- Identifying and resolving issues and bugs in front-end code through testing, debugging, and problem-solving techniques.
- 

## PROJECTS

---

📁 Itrack (React JS, Express JS and Mongo DB)

🌐 <https://itrack-0krk.onrender.com>

Itrack is designed to help development teams manage and track issues or bugs in their software projects. It serves as a centralized system for organizing, prioritizing, and monitoring the progress of identified problems within a software application or system.

📁 Cook.io (React JS, Express JS and Mongo DB)

🌐 <https://cook-io-8x99.onrender.com>

Cook.io is a recipe website that caters to food enthusiasts of all levels. From seasoned chefs to beginners in the kitchen, the platform offers a diverse range of delectable recipes that span cuisines, dietary preferences, and different continents.

📁 Better Health (React JS, Express JS and Mongo DB)

🌐 <https://better-health.onrender.com>

Better Health is an online destination for holistic health and fitness guidance. The website is designed to empower individuals on their journey to optimal well-being by providing comprehensive health and fitness resources.

📁 EBudget (React JS, Express JS and Mongo DB)

🌐 <https://ebudget-1rfs.onrender.com>

EBudget is a user-friendly and efficient financial application designed to help individuals manage their finances with ease and precision. The application offers a streamlined interface and a range of features that simplify revenue and expense tracking and loan calculation.
